# WKC IN EUROPE

WKC have had a presence in Europe since 2015 following the opening of our office in **London, UK**. As well as offering services domestically, our UK office also acts as a centre of technical excellence for environmental studies that we apply to our projects around the world.

Our recently opened office in **Gothenburg, Sweden** provides our base within the EU, out of which we offer corporate environmental and sustainability services.

Supporting our ESG services in Europe, WKC have a strategic collaboration with the London-based, boutique consultancy firm **GBC**. WKC have been collaborating with GBC's highly experienced team for more than 15 years. Blending international experience with local presence, the **WKC-GBC** team brings a truly world-class offering to our valued clients in Europe and around the world.
